OBJECTIVE

Driven and detail-oriented Software Development Engineer with proficiency in Java, and Node.js, along with hands-on experience in full-stack web development. Seeking an SDE role to leverage my skills in building scalable and efficient applications while contributing to innovative solutions and driving business impact through technology.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, SQL
- **Development:** MongoDB, Express, React, Node, Firebase
- **Libraries & Tools:** Socket.io, Web Tokens, MaterialUI, Tailwind, Git
- **Fundamentals:** Data Structures and Algorithms, DBMS, OOPS, Computer Networks

PROJECTS

Chatwave - Chatting site

May 2024 – June 2024

[Repository-Link](#) — [Site-Link](#)

MongoDB, Express, React, Node, Socket.io

- Designed a live-chatting application enabling user login and real-time communication.
- Implemented a responsive front-end adapting to multiple screen sizes.
- Integrated group creation, joining functionalities, and light/dark mode toggle, improving user interaction efficiency.
- Mastered MERN stack technologies and used libraries such as JWT, MUI, and Socket.io to enhance application features.

Jobboard - Job Tracking Portal

January 2024 – February 2024

[Repository-Link](#) — [Site-Link](#)

React, Tailwind CSS, Firebase

- Engineered a job tracking portal to streamline the search for the latest job openings, improving user job search efficiency.
- Built a React based website enabling users to search for jobs based on specific criteria, enhancing user satisfaction.
- Implemented functionality for users to add job openings to the Firestore database, increasing job posting efficiency.
- Gained hands-on experience with React app development, hooks, and Firebase services, leading to a robust job tracking system.

Blogster - Blogging site

March 2023 – April 2023

[Repository-Link](#) — [Site-Link](#)

MongoDB, Express, EJS

- Created a blogging platform allowing users to publish and view blogs, increasing user engagement.
- Enhanced blogging platform with image uploads, comments, and like functionalities, boosting user interaction.
- Developed expertise in creating Express servers, API, and server-side scripting, ensuring seamless database interactions.

EDUCATION

GL Bajaj Institute Of Technology And Management

Greater Noida, India

B.Tech in Computer Science, Artificial Intelligence and Machine Learning, 8.1/10

Expected Graduation – July 2025

Anand Bhawan School

Barabanki, India

Intermediate, 8.5/10

March 2018 – June 2020

CERTIFICATIONS AND ACHIEVEMENTS

- Solved over 700 DSA problems on LeetCode Present
- Complete 2023 Web Development Bootcamp - UDEMY November 2023
- Smart India Hackathon, College level Finalist November 2023
- AWS Academy Graduate - AWS Academy Cloud Architecting October 2023
